

Research Ethics Supervisor Pro forma

This form should be completed in collaboration with your supervisee. Please ensure you have familiarised yourself with the University Research Ethics process prior to supporting students, also the relevant approved module level ethics application. For more information please see the Research Ethics and Integrity webpages or consult with the module lead. This form is for central auditing purposes only. It does not constitute any form of approval. Your supervisee must comply with required ethical standards when conducting research and stay within the defined parameters of the module level approval, with appropriate oversight and guidance from yourself as supervisor.

You can select to receive a copy of your submission for your own records on completing the form, before pressing 'Submit'. Submitted data will be stored on a secure SharePoint site accessible by the central ethics team for review and monitoring purposes. For further guidance, please contact res-ethics@brunel.ac.uk

Supervisor

1. Student First Name *

Meraj

2. Student Surname *

Hoque

3. Student Number *

2222491

4. Module Name *

Computer Science- Business Computing Final Year Project (2025/6)

5. Module Code *

CS3072-CS3605

6. Submission deadline *

27/04/2026

7. Please provide the BREO reference ID for the approved Module Application relevant to this student's research proposal (if applicable): *

51159-MA-Oct/2025-54728-2

8. Please provide a brief description of the proposed low risk research (including research method(s), intended participants and recruitment method) *

The activity will consist of participants testing and evaluating the system I designed. I plan to gather participants through direct recruitment, as I plan to ask students on campus to volunteer. I will first ensure they are willing to spare a few minutes to talk and if they are, I will start by explaining the testing purpose and its process and letting them read my participation information sheet which I will have on hand. This is to ensure anyone who agrees is fully aware of what they're taking part in and understands their freedom throughout. The basis of the test is for the participants to explore and use all the projects features. Through my own exploration of the website, I will set a maximum time the participants are able to use the website for (approx. 5min) but allow them to stop any time before that. Then I will have them use another phishing detection system called urlscan.io. Afterwards, they'll complete a questionnaire on campus, which focuses on helping me understand their thoughts on how clearly they understood the feedback provided by the

9. Will the study involve laboratory or field work (including the Indoor Athletic Centre and Sport Facilities)? 

☐ Yes

☒ No

10. Will the study be conducted overseas? 

☐ Yes

☒ No

11. Is state or other local ethical approval required for conducting the planned research within the region? 

☐ Yes

☒ No

12. Are you satisfied the proposed research falls under BUL's stated risk categories and the parameters of the approved Module Application?

You can view the Research ethics risk categories here -

<https://www.staff.brunel.ac.uk/research-ethics-risk-categories>

* 

☒ Yes

☐ No

Supervisor Confirmation

Please read the following statement

- I confirm I have met with the student and discussed the research proposal in full.
- I confirm that I consider the proposed research is low-risk in nature and permissible under the parameters of the approved Module Application.
- I confirm that I have advised the student on the ethical aspects of the study design and their responsibilities when conducting research.
- I confirm that the student has been advised to read the University's Code of Research Ethics, the BUL research Risk Categories and other relevant documentation.
- I confirm that the student has the skills to carry out the research.
- I confirm that if the research involves human participants, the necessary documentation (Participant Information Sheet, consent forms etc.) have been checked and completed appropriately.
- I confirm that if the research involves human participants, the procedures for recruitment and obtaining informed consent are appropriate.

13. Please provide your Brunel email below to confirm you have read and agree to the above conditions * 

sophie.chaveli@brunel.ac.uk

Supervisor Declaration, part 2:

I confirm that I have made the student aware of their responsibility to:

- have discussed the research proposal in full with me, as their supervisor
- ensure that the research will be undertaken in accordance with the Brunel University of London Code of Research Ethics and the Brunel University of London Research Integrity Code
- confirm that the proposed research is low risk in nature according to the risk categories set by the University
- notify me, as their supervisor, before implementing any changes to the agreed protocol or methods
- conduct the study only as agreed with myself, as their supervisor

and that:

- if deciding at a later date to change the research study, this confirmation may be invalidated, in which case new confirmation would be required
- any research activity of a medium or high-risk nature without the necessary approval may result in disciplinary procedures

14. Please confirm that you have discussed the above with your student and they have agreed to comply with the conditions. * 

☒ Yes

☐ No
